

Operation: KC and the Sunshine Gang

Code Name: *ba bi bu be bo*

Date: May 19, 2011

A new Japanese organization, Asahi 朝日 (Rising Sun), sees a potential opportunity to disrupt the North Korean regime while its leadership is weak. Kim Jong Il's health is in decline and his son, Kim Jong Un is ill prepared to take over.

New intelligence indicates that Asahi is larger than previously thought, gaining more influence on the northern islands. They appear to be preparing for a larger operation, possibly to establish a foothold in North Korea as the DPRK government is focused inward on the turmoil surrounding the health of Kim Jong Il.

They have reached out around the world to acquire arms and support indicating a level of action that could be perceived by North Korea as an act of war, possibly destabilizing the region.

Information has been provided to the agency that a contingent from Asahi will travel to the United States to meet with an unknown arms broker to make a deal for weapons, material and other support. At this time, the identity of the arms broker is not known, but it is believed that a high ranking member of Asahi, Hideaki Matsume, is leading the effort.

The meeting will take place May 19, 2011 at the Kansas City Marriot Downtown. It is estimated that there could be a large contingent of Asahi in the area to support, hiding among an Asia/Pacific/North America trade conference taking place at the Convention Center.

Your mission, should you choose to accept:

- 1.) Identify the Weapons Broker. At minimum, a clear photograph is needed for facial recognition. Other evidence to clearly identify the person and affiliated organization would be preferred. A bonus will be provided if the dealer is captured and extricated from the area alive.
- 2.) Prevent the Asahi leaders from escaping, including the assassination of Hideaki Matsume.
- 3.) Double mission pay and experience awarded if all mission criteria can be completed and the agents are able to leave the building before police arrive on scene.

Agents will arrive in staggered succession May 16-18. Your cover will be attendance at the Trade Conference, so business attire is appropriate.

Two methods of extrication have been arranged. Three clean, untraceable cars have been provided and are parked in the garage below the building if you are able to complete the mission prior to the police arriving. In the event that the operation escalates, a helicopter is on standby to airlift the team from the roof of the hotel.

The following information is of lower confidence:

- 1.) The dealer and Asahi leadership will meet for drinks in the hotel bar at 7pm on May 19
- 2.) Dinner reservations have been made for 7:45 in the hotel restaurant
- 3.) Business negotiations will likely not occur until after dinner, at a secure location
